DECLARATION

I, William D. Lowerison, am Southern California Edison Company's (SCE) project manager for the Consolidated Valley-Ivyglen 115 kV Subtransmission Line Project and Fogarty Substation Project. I am informed and believe that SCE posted and mailed its notice of filing the Application of SCE for a Permit to Construct the Consolidated Valley-Ivyglen 115 kV Subtransmission Line Project and Fogarty Substation Project, as required by General Order 131-D, Section XI, subparagraphs A.1. and A.3. A copy of the notice is appended hereto as an Attachment.

I declare under penalty of perjury that the foregoing is true and correct.

Executed this 18th day of June 2007, at Rosemead, California.

NOTICE OF APPLICATION FOR A PERMIT TO CONSTRUCT

Consolidated Valley-Ivyglen 115 kV Subtransmission Line Project and Fogarty Substation Project

Date: June 15, 2007

Proposed Project: Southern California Edison Company (SCE) has filed applications with the California Public Utilities Commission (CPUC) for permits to construct the Valley-Ivyglen 115 kilovolt (kV) Subtransmission Line Project (A.) 07-01-031) and the Fogarty Substation Project (A.) 07-04-028). Pursuant to ruling dated June 7, 2007, these applications have been consolidated for consideration as a single project (Proposed Project) requiring one Permit to Construct.

Valley-Ivyglen 115 kV Subtransmission Line Project Description - SCE proposes to construct, operate, and maintain a new 115 kV subtransmission line to connect the existing SCE Valley and Ivyglen substations. The Proposed Project also includes constructing improvements at both substations to accommodate the proposed subtransmission line and the installation of a telecommunication line along the proposed subtransmission line route. The Proposed Project would be located in Riverside County.

Construction is scheduled to commence in early 2008 and be completed by June 2009.

Fogarty Substation Project Description - The Fogarty project includes the following elements:

1. Construction of a new 115/12 kV substation (Fogarty Substation). The Fogarty Substation would be an unmanned, automated, low-profile, 56 mega volt-ampere (MVA) 115/12 kV substation.
2. Installation of three tubular steel poles to support two new 115 kV subtransmission line segments, each approximately 200 feet long, connecting the Valley-Elsinore-Ivyglen 115 kV subtransmission line to the Fogarty Substation.
3. Construction of six underground 12 kV distribution circuits.
4. Installation of new fiber optic cable and communication equipment to connect the Fogarty Substation to SCE's existing telecommunication system.

The Fogarty Substation would be located on a 6.6 acre parcel of SCE owned land located east of Terra Cotta Road, west of Dobler Street, south of Kings Highway, and north of Hoff Avenue within the City of Lake Elsinore.

Construction of the Fogarty Substation is scheduled to begin in the third quarter of 2008 and be completed by June 2009.

The CPUC requires utilities to employ "no cost" and "low cost" measures to reduce public exposure to electric and magnetic fields (EMF). In accordance with the EMF Design Guidelines filed with the CPUC in compliance with CPUC Decisions 93-11-013 and 06-01-042, the Proposed Project implements the following measure[s]:

Valley-Ivyglen 115 kV Subtransmission Line Project:

1. Using taller poles.
2. Using a "triangle" type pole-head configuration for single-circuit segments and a double-circuit pole-head configuration for double-circuit segments.
3. Phasing the proposed 115 kV subtransmission line with respect to the adjacent existing transmission and subtransmission lines.

Fogarty Substation Project:

1. Use of setbacks from the Fogarty Substation property line for the 115 kV electrical substation components (such as transformers, switch-racks, capacitor banks and buses).
2. Configure the 115 kV rated transfer and operating buses with the transfer bus facing the nearest property line.
3. Optimally phase the 115 kV subtransmission lines looped into the Fogarty Substation.

Environmental Review: The CPUC is responsible, under the California Environmental Quality Act (CEQA), for identifying the significant environmental impacts of the Proposed Project and for avoiding or mitigating them if feasible.

SCE has prepared Proponent's Environmental Assessments (PEAs), which include analyses of potential environmental impacts created by the construction and operation of the Proposed Project. The PEAs conclude that the project would not result in any significant environmental impacts.

The CPUC will conduct an initial review of the Proposed Project's potential environmental impacts. Depending on the potential effects, the CPUC will issue a Notice of Intent to Approve a Negative Declaration (NOI) that the Proposed Project will not result in any significant environmental impacts, or a Notice of Preparation (NOP) of an Environmental Impact Report (EIR). The public may participate in the environmental review by submitting comments on the NOI or NOP and draft EIR, and by participating in any scoping meetings or public meetings that may be conducted.

Formal Protests: Formal protests to the application must comply with Article 1 and Rule 2.6 of the CPUC's Rules of Practice and Procedure (posted on the CPUC's website at www.cpuc.ca.gov). Formal protests must state the facts constituting the grounds for the protest, the effect of the application on the protestant, and the reasons the protestant believes the application, or a part of it, is not justified. If the protest requests a hearing, it must state the facts you would present at a formal evidentiary hearing to support your protest. Pursuant to ruling dated June 7, 2007, the time for filing formal protests has been extended to July 16, 2007.

Letters: If you wish to make your views known without participating formally, you may write to the CPUC at 505 Van Ness Avenue, San Francisco, CA 94102. Your communication will be directed to the Commissioners and the Administrative Law Judge for review, and will be placed in the proceeding's formal Correspondence File.

Notice and CPUC Documents: To be added to the official service list as "Information Only" for service of all CPUC documents in this proceeding, e.g., notice of hearings, rulings, and decisions, contact the Process Office at the CPUC, 505 Van Ness Avenue, San Francisco, CA 94102 or by e-mail at process_office@cpuc.ca.gov.

For assistance, please call the CPUC's Public Advisor in San Francisco at (415)703-2074 (public.advisor@cpuc.ca.gov) or in Los Angeles at (213) 576-7055 (Public.Advisor.LA@cpuc.ca.gov).

To review a copy of SCE's applications, or to request further information, please contact:

CERTIFICATE OF SERVICE

I hereby certify that, pursuant to the Commission's Rules of Practice and Procedure, I have this day served a true copy of **SOUTHERN CALIFORNIA EDISON COMPANY'S DECLARATION CONCERNING NOTICE** on the Commission's official service list for this docket. Service was effected by one or more means indicated below:

Placing the copies in sealed envelopes and causing such envelopes to be delivered by hand or by overnight courier to the offices of the Commission or other addresses.

Executed this 18th day of June, 2007, at Rosemead, California.
